THE WEEKLY DIGEST

September 22, 1968 SECTION TWO Index

INDEX TO VOLUME 55

JANUARY THROUGH JUNE 1968

Items in QUOTE are arranged alphabetically according to subject matter and are regularly assigned an index number. In the semi-annual index, the first numeral in each reference indicates the page, the second numeral refers to the location of the item on that particular page, according to its index number. Thus, in the first column of this index, "Abundance – 62-1;" tells you that an item on Abundance will be found on page 62 under number 1.

One or more letters following a page number, refer to material in regular departments. For example: "Brainstorming – 7-GB;" indicates that an item on that subject is in Gem Box on page 7. The reference to "Age – 255-h;" means that an item on that subject will be found in the regular Good Stories section on page 255 under index letter h.

Quotations in the section May We QUOTE You On That? are also numbered and a reference such as "America, Civil War – 321-2Q;" refers to a quotation on that subject on page 321 in the May We QUOTE . . . section. When the letter "t" follows the Q as in the reference "Musicians – 260-1Q-t;" it indicates the special Quote-ette feature on page 260.
